

Testimonial by I AM's Son at age 16

My mother, I AM, is GOD's emissary and interpreter. I have always loved my mother; she has never hurt me in any way. She has always been there for me. I believe in her. The ascension of light and goodness has always been her goal. Whether she was planting trees, writing screenplays or working on *Gods Words*, she always had time for me. For that reason I shall love her forever. The dawn of a new era approaches. Great changes will occur. The human race can only pray for the best, and the best is what will come.

The age of light is here.
